Admissions Office

Dear Members of the Admissions Committee:

I am pleased to recommend David Alejandro Guaicha Villagómez, holder of Ecuadorian ID No. 1725628711, as a candidate for your undergraduate programme in Computer Science. I have known Alejandro since May 2022, when he began taking extracurricular mathematics classes with me. These sessions were not academic reinforcement but rather an opportunity to delve deeper into mathematical concepts and develop critical thinking skills beyond what is typically expected of students his age.

As the Director of Education at Mathkind Global, with a master's degree in Mathematics Education and a bachelor's degree in Pure Mathematics, I have worked with numerous students throughout my career. However, I have rarely had the privilege of teaching someone as motivated and talented as Alejandro. During our time together, we explored advanced topics in geometry, algebra, trigonometry, statistics, probability, linear algebra, and discrete mathematics—all applied to solving real-world problems.

What truly sets Alejandro apart is not only his mathematical aptitude but also his insatiable intellectual curiosity. Despite my limited availability due to my professional responsibilities, meeting with him weekly was an immensely enriching experience. His enthusiasm for learning and his ability to tackle complex problems with persistence and rigour made each session intellectually stimulating, even for me as an educator.

In 2023, Alejandro moved to Singapore to complete his final year of high school. Nevertheless, we continued working together during his vacations in Ecuador and occasionally virtually. This reflects his unwavering commitment to continuous learning and his determination to excel. I am confident that these qualities, combined with his analytical skills, creativity, and discipline, will make him an exceptional student at your university.

I have no doubt that Alejandro will make significant contributions to your academic community and will take full advantage of the opportunities offered by the National University of Singapore. I enthusiastically recommend Alejandro and am confident that he will meet and exceed the highest standards of excellence you seek.

Please do not hesitate to contact me if you require any additional information.

Sincerely,

Paola Castillo
Director of Education
